

## *Safari Bracelets*

by Judie Leos

### MATERIALS

Wood bangle bracelet (your choice)

Pentel® Metallic™ Brush pens: silver, bronze and gold

Pentel® Wet Erase Chalk Marker: chisel tip, black

High gloss acrylic sealer: spray or brush-on

### INSTRUCTIONS

1. Paint entire bracelet in gold, silver or bronze metallic for "fur" background color: zebra = silver; tiger or jaguar = bronze; leopard, giraffe, or cheetah = gold. On multi-part bracelet, rotate the metallic colors, so no two adjacent parts have the same "fur." Let dry.
2. Use the photo and drawings shown here as a guide to draw spots or stripes onto the fur background and fill in with black chalk marker. Let dry. (Note: Giraffe gets no black.)
3. For leopard or jaguar, add metallic bronze or gold spots (respectively) on top of black, as shown in photo. For giraffe, paint bronze spots on the gold background. Let dry.
4. Check for areas that need more coverage and touch up, applying black or metallic color as needed. Let dry.
5. Apply sealer to bracelet, set on foil or waxed paper so it doesn't stick, and let dry completely.
