Pentel
REIMAGINE YOUR WORLD

THE HOME OF THE BRUSH PEN

As a Japanese writing instruments manufacturer brush pens are a Pentel speciality, and our wide range offers many styles, sizes and colours to suit writers and crafters of all levels of experience.

Brush Sign Pen Twin Tip is a good place to start, and the Pentel website has plenty of free to use worksheets and tutorial guides to help new users learn the basics of hand lettering and modern calligraphy.

Those ready to move on will find a world of colour and creativity open to them with a fantastic selection of brushes for more experienced users. From the Brush Sign Pen Artist, which has the thinnest brush tip for the most intricate detailing or accents, to the beautiful shades of the Pentel Colour Brush, there's a product to inspire original design work.

Looking for something completely different? DualMetallic Brush enables users to produce gorgeous shimmering effects that reveal a different shade on dark or light-coloured paper, while the classic Pentel Pocket Brush is a must-have for cartoons and manga-style illustrations.

Blending watercolour paints or pencils couldn't be easier, thanks to the Aquash Water Brush, which enables painters to produce lovely watercolour-style pieces without the need for a jar of water – especially useful when working en plein air.

That's why Pentel really is the #HomeoftheBrushPen.
